

SPIRE **OS**™

RANGE CONTROL AT YOUR FINGERTIPS.

Operate on any web browser enabled device.

Designed for touch with the operator in mind.

Industrial-grade equipment.

Real-time visual feedback to reduce downtime.

Multilingual.

Built for the trainer. Courses of fire and other automations.

- ⊕ **WEB BASED**
Operate on any web browser enabled device. Runs locally on your range hardware.
- ⊕ **MOBILE**
Being entirely web-based, spireOS can run on any tablet connected to the range WiFi.
- ⊕ **SIMPLE & INTUITIVE**
Designed with the operator in mind. Everything is designed for touch.
- ⊕ **MULTILINGUAL**
Almost everything is simple graphical operation. But where words are required, we've got you covered.
- ⊕ **ROBUST HARDWARE**
When requested, a robust 15in master touch screen and smaller local touch screen are built to last with industrial quality.
- ⊕ **COURSES OF FIRE**
Create custom courses of fire that meet your exact need.
- ⊕ **QUICK LANE SELECTION**
Instantly group and control target lanes using quick-select commands.
- ⊕ **REAL-TIME VISUAL INDICATORS**
Track target status instantly with clear symbols for target states.
